SwiftMasters Group Data Analyst (Remote)

About the job

We are looking for a Senior Data Analyst. You will be responsible for overall data strategy to develop in-depth reporting, metrics, and measurements for business success. Exact compensation may vary based on skills, experience, and location.

Job Description

- Collaborate with cross-functional teams to understand business requirements and provide data-driven solutions.
- Collect, cleanse, and analyze large datasets from diverse sources to identify patterns, trends, and correlations.
- Develop and maintain data models, databases, and data systems to ensure data integrity and accuracy.
- Utilize statistical analysis methods and predictive modeling to support forecasting, trend analysis, and business planning.

Requirements

- Proficiency in programming languages such as Python or R.
- Strong Proficiency in Business Intelligence Applications
- Strong communication and presentation skills with the ability to convey complex findings to non-technical stakeholders.
- Advanced knowledge of data visualization tools such as Power BI, Qlik, or similar tools.
- Strong analytical skills with the ability to interpret complex datasets and extract meaningful insights.

Experience:

- Bachelor of Science degree.
- Master's or PhD may also apply.
- Proven Data Analyst experience.

Must be a US Citizen or Green Card Holder
